

SORSI SAFETY POLICY

SORSI follows the state, city and hotel guidelines for safety and public health. Please go to this link for up-to-date information related to Denver.

[Safety & Public Health info](#)

SORSI continuously monitors developments surrounding COVID-19 and the Delta Variant and recognizes the importance of safety practices for our Homecoming 2021 event.

We have been working closely with our event venue and have agreed to follow their current safety protocols, which you can review at this link.

[Hilton Safety & Cleanliness Policies](#)

We acknowledge that there is risk associated with travel and attendance. We as a board, however, feel that risk is similar to what we encounter on a daily basis interacting with our patients and communities. We also hold true the values of individual choice, health sovereignty, and personal responsibility. In that light, it is expected that anyone who is experiencing symptoms, or has been in close contact with anyone experiencing symptoms near or during the time of the event, will abstain from attending. We also respect the decision of whomever feels that attending this year is not the safe choice for them.

With that being said, we feel that it is most important, at this critical time, for Chiropractors to provide safe and effective stewardship for our patients and communities in this unprecedented time. Our ability and sacred duty to assist the body's innate ability to dissipate stress, increase adaptability, and affect basic neuroimmune tone is more important than ever. We will provide a safe and socially responsible environment for our doctors and students to gather for the purpose of exchanging knowledge for the betterment of society in this time of uncertainty, and the sharing of brotherhood and sisterhood in SOT® based Chiropractic.

As of the date of this communication (August 30, 2021), there are no mandates in place in Colorado, Denver City or the hotel including no mask mandates in the classrooms, other than what is already in place with the Hotel Safety practices included in the link above. We encourage you to familiarize yourself with these protocols.

We ask that you follow all local guidelines and laws with respect to practicing social distancing and wearing a mask per local and hotel guidelines. Please check with regional health and government authorities about specific policies that may be in place at the location of your stay.

In addition, the following precautions are being implemented at the event in the hotel event space:

- TriadAER is happy to provide air filtration systems for each of the classrooms. These systems have been proven effective for purifying the air of viral and other pollutants.
- DoTerra OnGuard, proven effective to support the immune system will be continuously diffused during the event.
